

LIST OF FIGURES

1. Study area – Southern portion of Guana Tolomato Matanzas National Estuarine Research Reserve (GTMNERR)	2
2. Factors affecting erosion and accretion along an estuarine channel margin	4
3. Alterations in the vicinity of Matanzas Inlet.....	7
4. Digitizing the channel margin in the vicinity of a side channel	12
5. Estimation of error	13
6. Classification of channel margin types	13
7. Methods used to measure erosion and accretion.....	15
8. Coding of exposure to waves caused by predominant winds	17
9. Determination of exposure to navigation channel boat wakes	18
10. Measurement of distance from edge of 1999 navigation channel to channel margin	19
11. Coding of curvature variable and determination of radii of curvature	20
12. Minimum, maximum and quartile rates of lateral movement from 1970/1971 to 2002 classified by margin type	22
13. Minimum, maximum and quartile rates of lateral movement from 1970/1971 to 2002 classified by exposure to causal factors	23
14. 1970/1971 to 2002 change in area estimated from rates of lateral movement	25
15. Project Greenshores in Pensacola, Florida.....	29
16. Boat registrations in Flagler and St. Johns Counties, 1977 to 2001	31
17. Index of plates.....	39
18. Plate 1.....	40
19. Plate 2.....	41
20. Plate 3.....	42
21. Plate 4.....	43
22. Plate 5.....	44
23. Plate 6.....	45
24. Plate 7.....	46
25. Plate 8.....	47
26. Plate 9.....	48
27. Plate 10.....	49
28. Plate 11.....	50
29. Plate 12.....	51
30. Plate 13.....	52
31. Plate 14.....	53
32. Plate 15.....	54
33. Plate 16.....	55
